

BHAKTSEVA

Local Guide Service – Development Requirements

Complete Functional & Technical Development Plan

1. Project Objective

- Develop a Local Guide booking service inside the BhaktSeva website for devotees visiting Pandharpur.
- Allow users to search, compare, select and book verified local guides online.
- Provide guides with their own profiles and dashboard to manage availability and booking requests.
- Enable BhaktSeva to earn a commission or service fee from every confirmed booking.

2. User Side – Features for Devotees

- Create a dedicated 'Local Guide' service section on the BhaktSeva website.
- Show guide listings with photo, name, languages, experience, service areas, services, rating and charges.
- Filters: Language, Duration, Price, Rating, Service Type and Availability.
- Service types can include Temple Area Guidance, Local Sightseeing, Food/Prasad Guidance, Shopping Assistance, Local Transport Assistance and General Local Assistance.
- Booking form should include Date, Start Time, Duration, Number of People, Preferred Language, Service Type and Special Requirements.
- Show complete booking amount and applicable BhaktSeva/service charges before payment.
- Enable online payment and generate a unique Booking ID after successful payment.
- Provide 'My Bookings' with Upcoming, Completed and Cancelled bookings.
- Allow users to rate and review the guide after completion.

3. Guide Profile

- Guide Photo and Full Name
- Languages Spoken – Marathi, Hindi, English, etc.
- Experience
- Areas Covered
- Services Offered
- Hourly / Half-Day / Full-Day Charges
- Available Days and Time Slots
- Rating and Reviews
- Verified Guide Badge
- KYC/Identity Verification status managed by Admin

4. Guide Dashboard

- Guide Login / OTP Login
- Profile Management
- Availability Calendar
- New Booking Requests
- Accept / Reject Booking
- Upcoming Bookings

- Completed Bookings
- Cancelled Bookings
- Earnings Summary
- BhaktSeva Commission Deduction
- Customer and Booking Details
- Ratings and Review Summary

5. Admin Panel

- Add, Edit, Approve, Disable or Suspend Guides
- Guide KYC Verification
- Guide Profile Approval
- Booking Management
- User Management
- Availability Management
- Pricing Management
- Set Commission as Percentage or Fixed Amount
- Payment and Refund Status
- Cancellation Rules
- Ratings and Reviews Moderation
- Daily and Monthly Booking Reports
- Revenue and Commission Reports
- Active Guide Reports

6. Booking Flow

- Step 1: User opens Local Guide.
- Step 2: Select Date and Time.
- Step 3: Select Language and Service Type.
- Step 4: Display available guides.
- Step 5: User opens and reviews guide profile.
- Step 6: Click Book Now.
- Step 7: Show Booking Summary.
- Step 8: Complete Online Payment.
- Step 9: Generate Booking Confirmation and Booking ID.
- Step 10: Send booking request to the selected guide.
- Step 11: Guide accepts or rejects the request.
- Step 12: User receives final confirmation and meeting point/contact details.

7. Payment & Commission Model

- Example: Guide Charge = ₹800.
- If BhaktSeva commission is 15%, commission = ₹120 and guide earning = ₹680.
- Integrate a secure online payment gateway.
- Recommended booking statuses: Pending Payment, Paid, Guide Pending, Confirmed, Completed, Cancelled, Refund Pending and Refunded.
- Guide payout can be processed weekly or according to an Admin-defined payout cycle.

8. Notifications

- New booking request notification to Guide.
- Booking confirmation notification to User.
- Guide accepted/rejected notification to User.
- Booking reminder to User and Guide.
- Cancellation and refund updates.
- Email, SMS and WhatsApp notifications can be added as a future integration.

9. Safety & Verification

- Only Admin-approved and verified guides should be visible on the live website.
- KYC/identity verification should be mandatory before guide approval.
- User-guide communication should be controlled through the platform where possible.
- Provide Help, Complaint and Report options.
- Clearly display Terms & Conditions, Cancellation Policy and Privacy Policy.
- Guides must not make unauthorized promises regarding temple entry, darshan or special access.

10. Recommended Database Structure

- Users: user_id, name, mobile, email, status
- Guides: guide_id, name, photo, languages, experience, areas, services, pricing, verification_status, rating
- Availability: guide_id, date, start_time, end_time, status
- Bookings: booking_id, user_id, guide_id, date, time, duration, persons, service_type, amount, commission, status
- Payments: payment_id, booking_id, gateway_reference, amount, status
- Reviews: review_id, booking_id, user_id, guide_id, rating, comment
- Guide Documents: guide_id, document_type, document_reference, verification_status

11. Recommended Website Pages

- Local Guide Landing Page
- All Guides
- Guide Profile
- Booking Page
- Booking Confirmation
- My Bookings
- Guide Login
- Guide Dashboard
- Guide Earnings
- Admin Guide Management
- Admin Booking Management
- Admin Reports

12. Development Phases

- Phase 1: UI/UX Design and Database Planning
- Phase 2: User Registration/Login and Local Guide Listing
- Phase 3: Guide Profiles and Availability System
- Phase 4: Booking Engine
- Phase 5: Payment Gateway and Commission Calculation

- Phase 6: Guide Dashboard and Admin Panel
- Phase 7: Notifications, Reviews and Reports
- Phase 8: Testing, Security Check and Production Launch

13. Recommended MVP – First Version

- Verified Guide Listing
- Guide Profile
- Date and Time Booking
- Availability Management
- Online Payment
- Booking Confirmation
- Guide Dashboard
- Admin Approval
- Commission Calculation
- Rating and Review

14. Future Features

- Multi-city Local Guide Service
- Auto/Cab Booking
- Hotel and Restaurant Integration
- Live Location Sharing During Booking
- WhatsApp Automation
- Multilingual Interface
- Coupon and Referral System
- Guide Subscription or Premium Listing
- AI-based Guide/Service Recommendation
- Corporate and Group Pilgrimage Booking

Development Note: This document is prepared as a functional scope for the BhaktSeva development team. The final technology stack, payment gateway, hosting architecture and UI design should be finalized according to the existing BhaktSeva website architecture.
